HUMSAFAR · QA

ICP-4 / 4.10 Messaging: Results (calls pending)

v1.0 · prepared by Syed Sarim Jawad Zaidi (QA) · run 7 Nov 2026, 15:05–15:16 PKT on debug-apk-1.8, hosted backend · Ali on Sarim's phone, Ammi on his second Android phone

7 / 9	2	0	Calls
passed	partial (no push)	failed	blocked by F-16

1. Summary

Messaging works in the app: text both ways, unread count, read receipts, length and empty-text checks, history paging, urgent voice messages from the Guardian (play, heard, 2-minute limit), and no mic for the Dependent. **No new finding.** The only gap is delivery: neither a message nor an urgent voice message reaches the other phone as a notification, because the server sends no real push (**ICP-3 F-16, Critical, backend**). **Calls are blocked by the same finding** and are run once it is fixed, before the ZegoCloud free period ends (18 Nov).

ICP-4 stays open until the calls are run.

2. Results

Case	Check	Result	Note
M-01	Ali sends "Did you eat?"	Partial	Shown on both phones. Ammi gets no notification: no push reaches any phone (ICP-3 F-16, backend)
M-02	Ammi replies; unread on Ali	PASS	Reply arrives; unread count shown on Ali's Messages icon
M-03	Read receipt	PASS	"Read" shown after the other side opens the chat
M-06	Spaces only, over 2000 characters, " hi "	PASS	Spaces only refused; 2000-character limit enforced; " hi " saved as "hi"
M-11	Older messages load on scroll	PASS	Older messages load in order, no duplicates
V-01	Ali sends a 10 s urgent voice message	Partial	Sent and shown in Ammi's chat. The critical alert to Ammi's phone does not arrive (F-16)
V-02	Ammi plays it; Ali sees it was heard	PASS	Plays; shown as read on Ali
V-04	No mic for the Dependent	PASS	No mic in Ammi's chat
V-06	Recording stops at 2:00	PASS	Stopped at 2:00 and could be sent

3. Not run in this pass

Cases	Why / when
M-04 (retry after airplane mode)	Phone stays on Wi-Fi; needs a real network drop
M-05, V-03, V-05, V-07 (Postman: retries, bad files, no token)	Covered by the 7.7 backend regression; repeat in S9
M-07 – M-09 (Sara / Bilal threads and permissions)	Second pass with /docs steps
Calls C-01 – C-11 (ICP-4 calls)	BLOCKED: an incoming call rings the other phone through a push, and the server sends no real push (ICP-3 F-16). Run after the fix, before the ZegoCloud free period ends (18 Nov)
